

POINT OF SALE

Free tele-support for the first 30 days (T&C'S apply)
Free e-mail support (T&C'S apply)
Upgrade subscription optional

Take the risk out of choosing a POS System

All in one Complete Technology

Drill down to "Source" from anywhere

If you ever see an unfamiliar transaction in Omni, and you are not sure where it came from, all you need to do is "double click" on the transaction and Omni will open up the original source document such as an invoice or bank deposit etc.

Unlimited History (find anything)

With unlimited history and capability of processing across 3 years simultaneously. Omni knows no limits!

Engineered for a Seamless Growth Path (painless)

Omni is an uncompromising, all in one complete, accounting and ERP system, designed to be scalable and configured for all business solutions. Possible for all business types to easily and seamlessly upgrade through the complete range of Omni Modules and Switches.

Omni's efficient, innovative design makes it possible to upgrade seamlessly to any higher Omni Bundle or features/Switches instantly. No reloads or new installations are necessary, and all the information you have accumulated always remains intact.

Uniquely Omni allows you to customise your Omni Bundle by selecting, activating, purchasing any additional Switches you require, over and above those available in the Bundle you have purchased.

Find the right Solution

Configure a Bundle package specially formulated for your companies needs.

Product Comparison

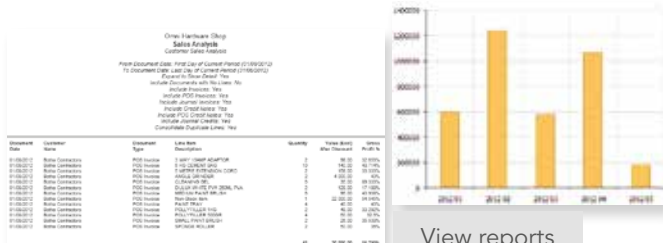

Omni makes it possible for all business types to easily and seamlessly upgrade through the complete range of Omni Modules and Switches.

Customers who bought Omni Point of Sale also added the following

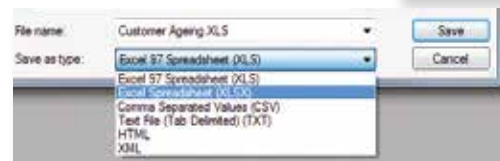

Omni's Powerful (but easy to use) Report Writer

It is the results, "output" or reports, that REALLY count! The "input" (the processing) is easy.

However, with Omni's powerful report writer, which includes graphs and "pivot tables", you can easily design your own meaningful reports.

View reports conventionally or graphically

Omni & Excel work together!

Instantly Export to & back from Microsoft Excel

Exporting and importing of information (data) to and from Omni makes working with complementary packages such as Excel extremely easy.

Enterprise Resource Planning (ERP)
Omni addresses the "below the line" administrative activities that are critical to running your business!
Add on any module or feature as you grow!

Point of Sale is unique in that it is not just an "add on" or "after thought" bundle that "interfaces" into an accounting system! Omni Point of Sale Software is an integral part of the Omni Product Range, and therefore has a completely seamless integration with all the other aspects of the Omni Accounts, functions, Bundles and Switches, that you can tailor to best suit your exclusive accounting and management controls and requirements, no matter what your business type or your special needs.
